## Profile

I'm a UI Designer with over **20 years of experience**, dedicated to crafting user-centric solutions that enhance digital interactions across diverse sectors. Between 2020 and 2023, I **lead** a small **team** of two junior designers. This experience has significantly developed my skills in communication, responsibility and mentoring.

What sets me apart is the combination of in-depth **UI** expertise, a strong sense of **UX** and a solid background in **frontend** development, driving projects from initial UX Phase to high-fidelity prototypes in figma or nuxtjs for prove of concepts and to convince stakeholders.

I actively participated in **UX workshops** to have the perfect background to create clear and functional interfaces that align **user needs** with **business goals** and reflects the **brand's identity**.
